

## Senise Destiny 30

### - Luxury Yacht 30,5 meters L o a.

The Senise Destiny 30, though the smallest of the Senise Luxury Motor Yachts, has the accommodation, technical facilities and state-of-the-art navigational equipment usually associated with a much larger yacht.

The Senise Destiny 30 is truly a marvel of design accomplishment.

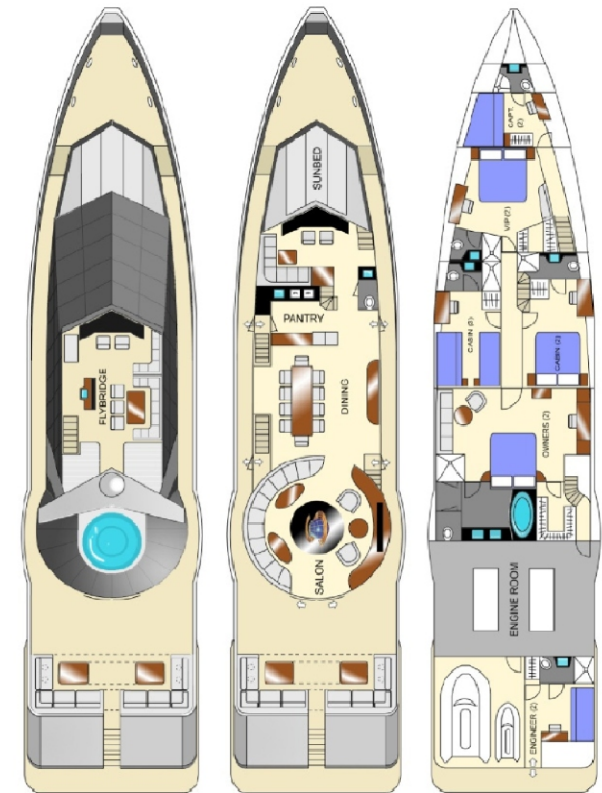

The Senise Destiny 30 will be outfitted with the characteristic globe-shaped superstructure, which encloses the salon adjacent to the dining room. In

keeping with the futuristic globe which distinguishes the Senise design, the interior is to be luxurious, yet modern and understated, without relying on any particular period theme. The objective will be to maximize the feeling of space, with openness in the salon and dining areas. Certain features of the smoked-glass exterior of the globe could be incorporated internally.

More particulars are provided, on application, to discerning prospective owners or investors.
